Greenway Place Model Home Premier

Susan Griffin will be holding open the just completed model at Greenway Place today from 1-5. Greenway Place is a Georgetown- inspired development located at 7700 Eastern. The development is adjacent to University Park, Greenway Park and Devonshire. It is walking distance to Inwood Village and the retail along Lovers Lane.

Rivendell Development has assembled a talented team of designers, which include Good Fulton & Farrell architects, interiors by Collections Rare and landscaping by RTKL. The result is an upscale modern urban community in one of Dallas's best locations.

The Modern Georgetown design combines traditional elements with a modern edge. The walk-able streetscape has extra wide sidewalks, gas lamps, a private courtyard for each residence and a pocket park. The interiors are sophisticated and clean lined. Available residences range in size from 2300 to 3557 square feet and in price from the low \$500's to the low \$800's
