## Firm closes out West Side at State Thomas with \$10,000 Incentive

Bill Griffin Real Estate announces the closeout sale of West Side at State Thomas by offering a \$10,000 incentive package for contracts closed by July 31.

The nine remaining tri-level residences developed by Urban Innovations are available in two bedroom with study and three bedroom configurations.

“The rooftop decks with their views of downtown are what make this development so popular with the urban buyer,” says listing agent Clay Stapp. “My client also love that their front door is within a short distance of some of Uptown’s trendiest restaurants and entertainment hop-spots.” Another highlight of these homes is the open galley kitchen that overlook the expansive living and dining rooms, making them ideal for entertaining.

Homes at the community are priced from the \$390’s to the \$500’s. The model home is open daily from noon til 6 p.m, except Wednesdays.
