

The Oliver Street Lofts are being featured in the 2008 AIA Home Tour on November 8th and 9th

The Oliver Street Lofts are being featured in the 2008 AIA Home Tour on November 8 and 9 from 10-5. The Oliver Street Lofts were designed by WKMC Architects Inc and developed/built by Clay Stapp, a real estate agent with Bill Griffin.

Oliver Street Lofts consist of 3 vertically configured dwellings. Each unit boasts a private gated entrance with outdoor garden area, large living area on 3rd floor, and roof-top deck with downtown views. Lots of light, a high-end finish-out, and a well thought-out design are what make these dwellings unique.

Mr. Stapp's project at 3110 Oliver Street was selected to be one out of nine homes included in the exclusive AIA Tour. "I am very excited that my first development is being recognized in such a prestigious event. It makes all the hard work worth the effort and inspires me to continue to strive to build architecturally significant modern homes."
